Ski-Pro

«The <Vola-Ski-Pro> suite»
Description (ENG) document Version 3.0.b (2011/12/01)

The <Vola-Ski-Pro> suite

1 - The components of <Vola-Ski-Pro> suite.

- The <Vola-Ski-Pro> suite consists of several software components having complementary features.

- <Ski-Pro> is the basis of the suite. It is the management software for timing and computer data for ski racing.

- <Display-Ski-Pro> takes information from <Ski-Pro> and enables to broadcast the results of your live events on a cable network of TV monitors.

- <Video-Ski-Pro> receives information from <Ski-Pro> and processes graphical keying of it over a HDMI TV video stream.

- <Live-Ski-Pro> is a Web interface which uses information from <Ski-Pro> and offers the possibility to broadcast live over the Internet the progress of your competitions.

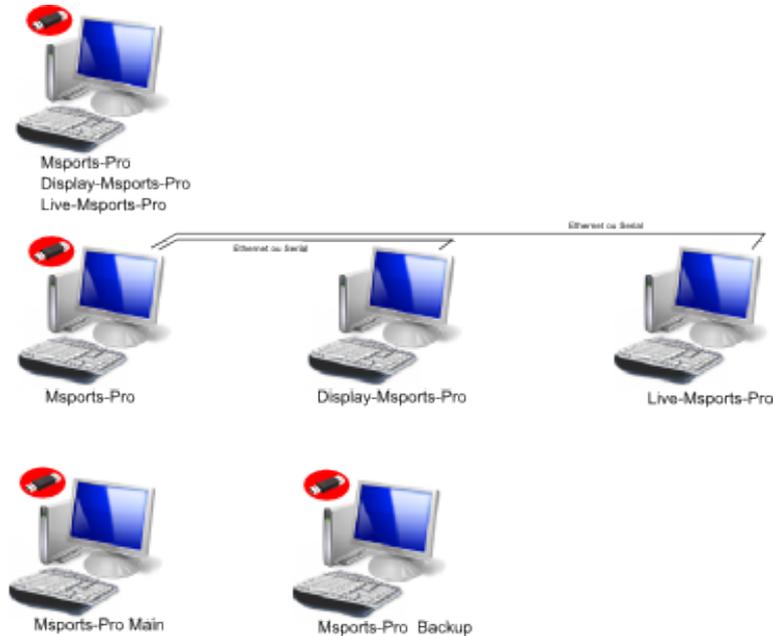

NOR1175 / European Cup Men, Trysil
Giant Slalom / RUN 2

15	39	BOUILLOT Alexandre		46.67	45.93	1:32.60	+1.17

2 - The protection of the components of <Vola-Ski-Pro> suite.

- The protection against fraudulent copies of <Ski-Pro>, <Display-Ski-Pro> and <Video-Ski-Pro> is provided by the presence of a USB <Dongle> protection key on the computer running <Ski-Pro>.

- When purchasing software or updates, it is entered in this <Dongle> the codes allowing them to operate.

- A <Dongle> can store several software components validation codes each one in its own version.

(Example : a sole <Dongle> can store the validations to use <Ski-Pro> version 2.0.07, <Display-Ski-Pro> version 2.0.02, <Msports-Pro> version 2.27.1, etc.)

- In case of a network use, the <Dongle> containing the codes for <Ski-Pro> or <Display-Ski-Pro>, and optionally <Video-Ski-Pro> must always be plugged in the computer running <Ski-Pro>.

- For <Live-Ski-Pro> the control is done on our Web server according to the rental period. There is no test mode for <Live-Ski-Pro>.

3 - The different ways of using <Ski-Pro>.

- The <Ski-Pro> software operates in two modes : <Free> mode (free of charge) and <Extended> mode.

- <Extended> mode requires the acquisition of a license :

- The purchase of an user license for the software is controlled by a <Dongle> protection key. This <Dongle> must be correctly coded for <Ski-Pro> at the version which is used.

- The <Dongle> must be plugged in the computer on which you wish to run <Ski-Pro> in <Extended> mode.

- <Ski-Pro> can be installed on several computers in <Free> mode. The <Dongle> installation will determine the computer on which <Ski-Pro> runs in <Extended> mode.

- Operating in <Extended> mode gives access to all the features of <Ski-Pro>.

4 - Software versions numbering.

- Depending on changes in rules or additions of features, we perform free or paying updates.

- Software components are identified with their version numbers which are of type <Version x.y.zz>.

- Updates are not free if the number <x> changes.

Example : You switch for free from a version 2.3.05 to a version 2.4.02.

But the purchase of an upgrade is necessary to move from version 2.3.05 to version 3.1.01.

5 - Compatibility between software components of different versions.

- To operate together, the <Vola-Ski-Pro> software suite components except <Live-Ski-Pro> must have versions (Version x.y.zz) with identical <x,y> numbers.

6- Les différences entre <Ski-Pro><Free> et <Ski-Pro><Extended>

<Ski-Pro>	<Free>	<Extended>
- Software protection.	- None.	- An USB dongle is necessary. - This dongle must be coded for the program at its version.
- Main window title.	Ski-Pro (version x.x.xx Free)	Ski-Pro (version x.x.xx)
- Active timing systems.	Alge mode : Alge TDC 4000. Alge TDC 8000/ 8001. Alge Timy. TAG Heuer mode : TAG Heuer HL 440. TAG Heuer CP 502. TAG Heuer CP 505. TAG Heuer CP 520. TAG Heuer CP 540. TAG Heuer PTB 605/606. TAG Heuer HL 650. TAG Heuer CP 705.	Alge TDC 4000. Alge TDC 8000/ 8001. Alge Timy. AMB TranX. AMB TranX-2 (enhanced protocol). AMB TranX-Pro (enhanced protocol). AMB TranX-3 (p3 protocol). Chronelec Protime Elite. Chronelec V1. Microgate RaceTime2. Microgate REI2. Omega OGM5005. Omega POWERTIME. TAG Heuer HL 440. TAG Heuer CP 502. TAG Heuer CP 505. TAG Heuer CP 520. TAG Heuer CP 540. TAG Heuer PTB 605/606. TAG Heuer HL 650. TAG Heuer CP 705.
- Scoreboards availability.	- 2 different scoreboards can be configured. - The display scenario enables to configure one line per scoreboard. - The scoreboards available in <Extended> mode can be used during 5 minutes for purpose of tests.	- 2 different scoreboards can be configured. - The display scenario allows up to 40 lines per scoreboard.
- Active scoreboard models.	TAG Heuer HL 980 / 985. VOLA CA8-15 / CA4-30.	Alge GAZ4. Adaptive AlphaEclipse 96x16. Adaptive AlphaEclipse 128x16. Micrograte µTAB. Microgatre µGRAPH. Omega GALACTICA. TAG Heuer HL 980/985. TAG Heuer HL 960/965. TAG Heuer HL970. TAG Heuer HL990. Vola CA8-15/CA4-30. Vola <Video-Ski-Pro>.
- Competitors management : active directories.	Last Name. First Name. Name. Code. Gender. Year. Committee. Club. Points.	Last Name. First Name. Name. Code. Gender. Year. Nation. Committee. Club. Date. Adress 1. Adress 2. Postal Code. City. Country. Points.
- Editing filters.	- Available in <Free> mode for the directories listed above.	- Filters can be applied in <Extended> mode to all the directories listed above.
- Exporting edits.	- Exporting into PDF files is possible.	- You can export your edits to these formats : PDF, XLS, TXT, HTML and send them to a FTP server.

7 - Use of <Display-Ski-Pro>.

<Display-Ski-Pro>	<Free>	<Extended>
- Software protection.	- None. - This component does not operate in <Free> mode.	- An USB dongle is necessary. - This dongle must be coded for <Display-Ski-Pro> with the version which is used. - The dongle must be plugged in the computer running <Ski-Pro>.
- Associated components.		- <Display-Ski-Pro> operates with <Ski-Pro> in <Free> mode or in <Extended> mode.
- Test possibility.	- It operates during 5 minutes from the moment the software is started.	

8 - Use of <Video-Ski-Pro>.

| <Video-Ski-Pro>	<Free>	<Extended>
- Software protection.	- None. - This component does not operate in <Free> mode.	- An USB dongle is necessary. - This dongle must be coded for <Video-Ski-Pro> with the version which is used. - The dongle must be plugged in the computer running <Ski-Pro>.
- Associated components.		- <Video-Ski-Pro> operates only with <Ski-Pro> in <Extended> mode.
- Test possibility.	- Two gray stripes bar the video output. - The timing data are sent from <Ski-Pro> only during 5 minutes. - The setup of graphics is however possible.	

9 - Use of <Live-Ski-Pro>.

<Live-Ski-Pro>	<Free>	<Extended>
- Software protection.	- This component only operates in <Extended> mode.	- The protection is managed on the Web server according to the rental period.
- Associated components.		- <Live-Ski-Pro> operates with <Ski-Pro> in <Free> mode or in <Extended> mode.

10 - Installation of the USB software license Key <Dongle>.

A typical USB software protection Key <Dongle> is shown in the image below :

In <Ski-Pro>, click on menu "Help" and then on "Hardware protection key".

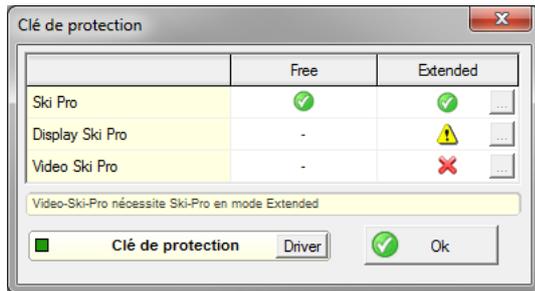

When the<Dongle> is correctly installed, the little square illuminates green to show normal operation.

If this is not the case, click on the "Driver" button and follow the on-screen instructions. (The computer will need to have an Internet connection in order to download the driver.)

11 - License Key contents and authorizations.

In <Ski-Pro>, click on menu <Help> and then on <Hardware protection key>.

For each component, the <Extended> column shows the status of your software license :

- a ✅ indicates that the <Dongle> license key is valid for the software in the version you are running.

- a ⚠️ indicates that the <Dongle> license key is valid, but for an earlier version of the software.
In this case you will need to purchase an update for this component.

In this purpose, click on the button [...] and then contact Vola (<support@vola.fr>).

- a ❌ indicates that the <Dongle> is not present or that you have <Dongle> without license for the software.
In this case you will need to purchase a license of the software.

In this purpose, click on the button [...] and then contact Vola (<support@vola.fr>).

12- Important notes

- This software product is protected by international rules of copyright, and rules on intellectual property.
- This software is not sold but licensed for use.
- The warranty covers only the protection key for one year from the date of purchase.
- It is your responsibility to archive installation programs used when setting up the software on your computers.
- This warranty is limited to the replacement of the dongle recognized defective by Vola, provided that the product is returned to Vola.
- Any other express or implied warranty is excluded, in particular any warranty regarding the adequacy to a particular purpose.
- The firm Vola can not be held responsible for the use or inability to use one of its software components.
- In any case the responsibility for Vola is limited to replacement of products recognized defective by Vola.
- The features and options contained in Vola software are not binding and may change without notice.

13 - <Vola-Ski-Pro> Suite Price List – Components pricing.

Prices excluding VAT and expedition in addition	<Update>	<Ful license>
<Dongle>	-	60 Euros
<Ski-Pro>	240 Euros	360 Euros
<Live-Ski-Pro>	240 Euros	360 Euros
<Live-Ski-Pro>	400 Euros	600 Euros
<Video-Ski-Pro>	-	600 Euros rent for one year

14 - Purchasing an <Update> or <Full license> for a component of <Vola-Ski-Pro> suite.

- In <Ski-Pro> in <Free> mode or <Extended> mode click on menu <Help> then <Hardware protection key>.

- Contact us at <support]@vola.fr> and include in the email the following frame after completion:

	Update **	Full license **	<Quantity>	<Code> *	<Password>
<Dongle>					
<Ski-Pro>					
<Live-Ski-Pro>					
<Live-Ski-Pro>					
<Video-Ski-Pro>					

* Enter the unlocking code for each desired component ; this code is obtained by clicking on the button [...] at the end of the line related to the component.

** Specify if it is an <Update> or a <Full license> purchase.

Include in the email the following datas :

 - The name of the program that you wish to buy.

 - The unlocking code(s).

 - The name of your company or association.

 - Your CE number (EU clients).

 - Your name.

 - The billing address.

 - The delivery address.

 - Your contact telephone number.

 - Your e-mail address.

 - Your web site address.

We will then send you a PayPal active link for the payment.

When the payment is confirmed we will then send you your new activation number.
