New Proposal (changes in "red" color):

614.2.3 Interdiction to Continue after a competitor stops
 If competitors come to a complete stop (e.g. after a fall), they must no longer continue through previous or further gates. ~~This interdiction is valid in all events with a fixed start interval (Downhill, Super G, Giant Slalom, Parallel). Only exception is for Slalom (art. 661.4.1), as long as the competitor:~~
~~- does not interfere with the run of the next competitor or,~~
~~- have not been passed by the next competitor.~~

661.4.1
 A gate has been passed correctly when both the competitor's ski tips and both feet have crossed the gate line. If a competitor loses a ski, without committing a fault, e.g. not by straddling a pole, then the tip of the remaining ski and both feet must have crossed the gate line. ~~This rule also applies when a competitor has to climb back up to a gate. (art. 614.2.3)~~

804.3
 Where there is no outside pole, both feet and ski tips must have passed the turning pole on the same side, following the normal race line of the slalom crossing the imaginary line from turning pole to turning pole. If competitors lose a ski, without committing a fault, e.g. not by straddling a pole, then the tip of the remaining ski and both feet must meet both requirements. ~~If competitors have not correctly crossed the imaginary line from turning pole to turning pole and does not follow the normal race line, they have to climb back up and pass around the missed turning pole.~~ Where there is an outside pole (first and last gate, delayed gate, and combinations (hairpin, vertical) art. 661.4.1. is valid.

New Proposal (changes in "red" color):

1001.3.2

The gates must be alternately red and blue. In special circumstances, where a panel colour cannot be seen properly against the backdrop (e.g. safety netting), the Jury can decide an alternative colour for the gate panel for that specific gate to improve visibility. The gate panels are to be approx. 75 cm wide and approx. 50 cm high. They are fastened between the poles so that the lower edge of the panel is approx. 1 m above the snow and should be capable of tearing or breaking away (art. 690).

Comments/Reasons:

Improving the opportunity for Jury decisions in Speed events similar in Super-G as for Downhill (art. 701.3.2).
